

LinkWISCONSIN – Residential Demand Survey (Full)

This is a survey to determine the broadband needs for Wisconsin's residents. Results will be used in two ways: 1) locations will be mapped to show unmet needs or demand for high speed internet, 2) submissions will be used to communicate need to potential providers. Users submitting data on this survey can choose to NOT allow their location to be mapped. If your location can be mapped, your actual address information will NOT appear on the map, just a general location marker showing need.

If you have Internet access, please complete the survey online (should take about 10 minutes) at <http://www.wisconsindashboard.org/residence-survey>. If you do not have Internet access, please fill out the attached shorter (about 5 minutes) paper survey, and mail in the envelope provided. Data from this survey may be available to others per open record requirements.

1. Street address–Please do not use PO Box.

Street Address: _____

City: _____ State: _____ County: _____ Zip: _____

2. Can your residence location appear on the LinkWISCONSIN Demand Map?

One of the purposes of this survey is to collect and map locations where there is need for additional high-speed Internet options. To map a location, the street address of the location is geocoded (a longitude/latitude identifier) and used to position markers on a publicly viewable map.

Yes No

If the location can be mapped, the address WILL NOT appear on the map.

It is not required that this location be mapped to complete and submit this survey. If you indicate no, no information will appear on the map.

3. Do you have access to an Internet connection?

Yes No

If Yes, please complete the survey online at

<http://www.wisconsindashboard.org/residence-survey>.

IF YOU DO NOT HAVE AN INTERNET CONNECTION PLEASE SKIP TO QUESTION 14 ON PAGE 5

4. If you have an Internet connection, is it adequate?

Yes No

5. If NOT adequate, describe why: (select all that apply)

- Browsing on the Internet is too slow (going page to page)
- File downloads/uploads take too long
- Photo downloads/uploads take too long
- Video downloads/uploads take too long
- Streaming video quality is jerky/not good
